Profile

Product Owner with 6+ years delivering complex hardware-enabled, data-driven products in regulated, enterprise environments. Own end-to-end delivery across product portfolios spanning hardware, software, data platforms, and production operations. Accountable for CHF 1.6M ARR, prevented a CHF 1M hardware write-off, and led delivery for a CHF 4M enterprise contract.

Skills

Product ownership & delivery, roadmaps, prioritisation
Cross-functional coordination across engineering, data, and operations
Data platforms & APIs, production rollouts, system monitoring SQL & Python, KPI dashboards, anomaly detection
Regulatory & compliance support for enterprise products

Experience

Nexxiot AG, Product Owner

Zurich, Switzerland | Jul 2020 – Present

- Own end-to-end product delivery across the full sensor data stack, spanning device ingestion, backend services, APIs, dashboards, mobile applications, and production rollout.
- Coordinate delivery across multiple initiatives in parallel, managing priorities and dependencies across teams with a 12–18 month planning horizon.
- Lead a long-running, security-critical sensor product from initial requirements through product maturity, acting as primary interface to enterprise customer and external suppliers, and leading delivery for a CHF 4M enterprise contract.
- Design and operate fleet-health monitoring and KPI dashboards to detect data anomalies and errors, track firmware and feature rollouts, and ensure adherence to performance KPIs for large-scale customer projects.
- Deliver a production-grade ML-based classification capability, preventing a CHF 1M hardware write-off.

Nexxiot AG, Solution Manager

Zurich, Switzerland | Oct 2019 – Jul 2020

- Coordination of development and launch of a regulated, customer-facing product.
- Interface between customers, engineering, and operations during early rollout.

Nexxiot AG, Project Manager

Zurich, Switzerland | Feb 2019 – Sep 2019

- Establishment of foundational quality and information security processes.
- Coordination of international logistics and compliant deliveries.

Education

- BA, Art History, University of Zurich
- Swiss Armed Forces, Tank Driver (Compulsory service)
- Matura, Science & Mathematics, Kantonsschule Schaffhausen
